

**Abortion:** *By Amber Slusher – Brookville, Ohio*

Abortion is something people talk about, it happens everyday.  
If you're wondering what I'm talking about...  
People are killing real babies this way.  
It is so wrong that these kids can't live at all.  
The public just goes along, not even making a visit or telephone call.  
You see. Mothers don't want their children...  
They just want them gone.  
So...they just kill them and ... life goes on.  
Abortion just needs to stop! ... I don't know how.  
All babies deserve life and liberty and happiness as you and I do now.  
So let there be no more killing of these innocent kids  
But pray with me that these babies will have the right to live!

**One of Bro. David's grand children**
